MGP 8.0

WHAT IS MGP ?

REDUCE THE COST SAVE THE FOREST RESOURCES

MPG is Millet Greener plate,which is compounded of millet & wood fiber,resin, and some of polymer materials , the physical characteristics is very exceptional , it is waterproof , anti-mite, anti-corrosion, thermal insulation, long life and so on. Beause of the steady performance , it can be used in various of harsh places but won't be mildewed, cracking and brittle. The sizes and colors can be customized, as it is made up by extrusion process. Both millet & wood fiber and resin is recyclable, so it is real green plate.

Millet Greener plate NATURE WOOD FRAGRANCE

- ◆ High density and strong impact resistance
- ◆ Using natural material
- ◆ No deformation, longer service life than ordinary plate.

Catagory	MGP
Thickness	8mm
Core layer	Solid
Installation	Buckles
Exterior	Seamless splicing
Material	Millet & wood fiber
Heavy metal content	CE
CE	Y
Rating	CE
Flame retardancy rating	B1
Fragrance	Nature wood
Grip force	1134N
Deformed after heating(70°C)	N
Portrait size change after heating(70°C)	0.15-0.25%
Landscape size change after heating(70°C)	0.02%-0.08%
GSM	6.7±0.3KG
Wood fiber content	50%

Millet Greener plate

NATURE WOOD FRAGRANCE

PARAMETER

PERFECT SEAMLESS SPLICING / BETTER WALL INTEGRITY / MORE BEAUTIFUL OF THE SPACE EFFECT / STRONGER STRUCTURE

PERFECT SEAMLESS SPLICING

Surface layer

Transparent polymer layer , UV treatment surface; Scratch-resistant,Wear-resistant, Stain-resistant, UV-resistant, etc. ;

Texture Layer

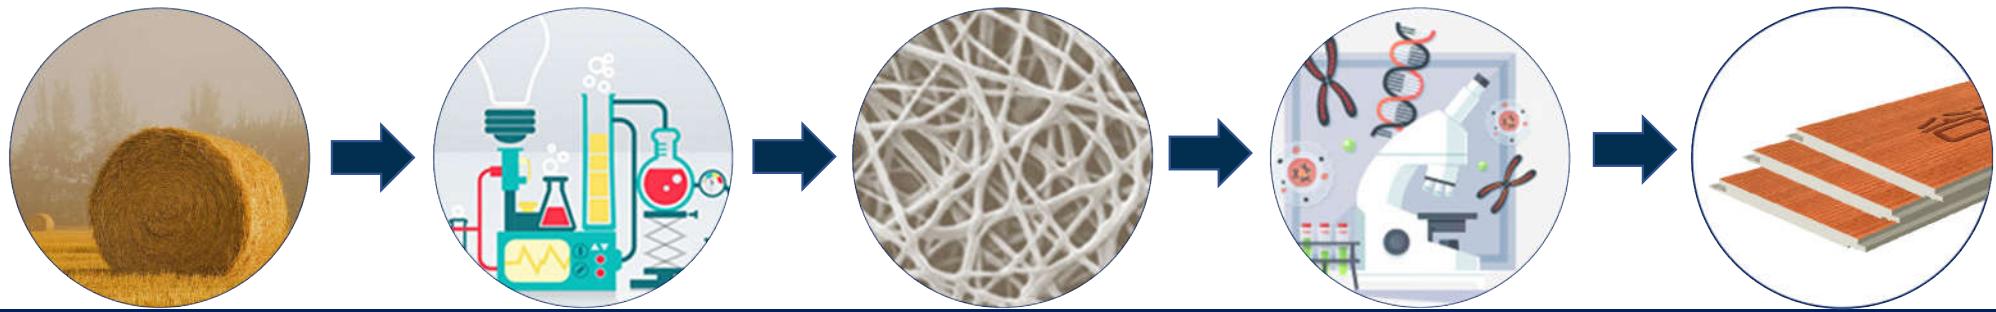

Imported assembly line , Real texture , Clearly ;

Basic Layer

No deformation , Antiseptic ;

Decoration Accessory

Make the overall effect more coordinated ;

Material

Manufacture

Fiber

Test

Product

Characterstics

Waterproof , Anti-mite, Anti-corrosion, thermal insulation, Long life and so on
